

FACT SHEET

Founded in 1994, with offices in Boston, MA and San Francisco, CA, Seacoast Capital invests non-controlling growth capital in partnership with management in lower middle market companies. Seacoast is industry agnostic and typically invests \$5 million to \$25 million of capital in companies with \$10 million or more in revenue and \$2 million or more of EBITDA. Capital is used to support growth, acquisitions, family ownership and wealth transfers, shareholder liquidity events, refinancings, or management buyouts. Since its inception, Seacoast has managed over \$600 million of capital. Now managing its fourth fund, Seacoast Capital Partners IV, L.P., the firm continues to actively seek new investment opportunities.

1 Direct investor of non-control capital in private companies, allowing owners and their management teams to retain controlling interest in their business while receiving the strategic capital they need to succeed.

2 Backers of family offices and independent sponsors, but not traditional committed capital private equity funds.
